Payments	Financial transactions
Invoices & Bills	Bill for services
Medical Services	Healthcare services provided
Requirements	Needed supplies
Services	Clinic services
Infrastructure	Physical clinic facilities and medical stores
Marketing	Promotional and outreach activities
Doctor Schedule/Availability	Doctor's available time slots

3. Mapping Relationships

3.1: Role-Object Interactions

User Role	Relationship	Object
Patient	Makes/Manages	Appointment
Patient	Makes	Payments
Patient	Purchases/Orders	Medicines
Patient	Receives	Invoices & Bills
Patient	Undergoes	Tests
Patient	Views	Test Reports
Patient	Views	Patient Record
Patient	Checks	Prescription
Patient	Views/Manages	Prescription
Patient	Checks/Exposes	Marketing
Patient	Checks	Doctor Schedule/Availability
Receptionist	Schedules	Appointment
Receptionist	Submits	Requirements
Receptionist	Checks	Doctor Schedule/Availability
Doctor	Checks	Health Issues
Doctor	Reviews	Medical History

Doctor	Creates	Prescription
Doctor	Orders	Tests
Doctor	Checks	Vitals
Doctor	Views	Test Reports
Doctor	Submits	Requirements
Doctor	Updates	Doctor Schedule/Availability
Nurse	Uses	Equipment
Nurse	Creates	Test Reports
Nurse	Records	Vitals
Nurse	Submits	Requirements
Lab Technician	Performs	Tests
Lab Technician	Uses	Equipment
Lab Technician	Creates	Test Reports
Lab Technician	Records	Vitals
Lab Technician	Submits	Requirements
Pharmacist	Dispenses	Medicines
Pharmacist	Purchases/Sells	Medicines
Pharmacist	Submits	Requirements
Pharmacist	Tracks	Payments

Pharmacist	Needs/Checks	Prescription
Admin	Tracks	Requirements
Admin	Setups & Manages	Services
Admin	Setups & Manages	Infrastructure
Admin	Manages	Marketing
Accountant	Tracks	Payments
Accountant	Tracks	Invoices & Bills

3.2: Object-Object Interactions

Object	Relationship	Object
Health Issues	Stored in	Patient Record
Test Reports	Stored in	Patient Record
Prescription	Stored in	Patient Record
Vitals	Stored in	Patient Record
Tests	Depends on	Health Issues
Prescription	Depends on	Health Issues
Prescription	Captures details of	Medicines
Patient Record	Contributes to/Updates	Medical History
Requirements	Influences	Infrastructure
Tests	Carried out using	Equipment

Tests	Generates	Test Reports
Payments	Settles	Invoices & Bills
Appointment	Booking is based on/Bookings update	Doctor Schedule/Availability

Amenities	Features and facilities of the property
Special Requests	Guest's specific needs or preferences
Property Rules	Check-in/out times, house rules, policies
Support	Customer service inquiry or complaint
Reservation Report	Analytics and booking performance data
Rate Plan	Pricing package with specific terms
Booking Modification	Changes to existing reservation

3. Mapping Relationships

3.1: Role-Object Interactions

User Role	Relationship	Object
Guest	Searches	Property Listing
Guest	Makes	Booking
Guest	Makes	Payment
Guest	Writes	Review
Guest	Requests	Cancellation
Guest	Receives	Refund

Guest	Applies	Voucher
Guest	Enrolls in/ Gets Part Of	Loyalty Program
Guest	Earns	Loyalty Points
Guest	Submits	Special Requests
Guest	Manages	Guest Profile
Guest	Seeks	Support
Guest	Requests	Booking Modification
Guest	Views	Property Photos
Guest	Checks	Amenities
Hotel Manager	Manages	Property Listing
Hotel Manager	Updates	Room Inventory
Hotel Manager	Updates	Availability Calendar
Hotel Manager	Manages	Booking
Hotel Manager	Reviews	Reservation Report
Hotel Manager	Seeks	Support
Hotel Manager	Sets	Property Rules
Hotel Manager	Reviews	Review
Hotel Owner	Owns	Property Listing
Hotel Owner	Reviews	Reservation Report

Hotel Owner	Receives	Payout
Hotel Owner	Pays	Commission
Hotel Owner	Reviews	Review
Hotel Owner	Seeks	Support
Receptionist	Checks out	Booking
Receptionist	Updates	Room Inventory
Receptionist	Processes	Special Requests
Receptionist	Seeks/Provides	Support
Receptionist	Handles	Cancellation
Receptionist	Approves	Booking Modification
Pricing Manager	Sets	Pricing Rules
Pricing Manager	Creates	Rate Plan
Pricing Manager	Seeks	Support
Pricing Manager	Reviews	Reservation Report
Platform Owner	Manages	Commission
Platform Owner	Oversees	Payout
Platform Owner	Reviews	Property Listing
Platform Owner	Creates	Voucher
Platform Owner	Defines/ Manages	Loyalty Program

Platform Owner	Defines	Loyalty Points
Platform Customer Representative	Provides	Support
Platform Customer Representative	Processes	Cancellation
Platform Customer Representative	Issues	Refund
Travel Admin	Creates	Booking
Travel Admin	Manages	Guest Profile
Travel Admin	Applies	Voucher
Travel Admin	Reviews	Invoice
Travel Admin	Seeks/Provides	Support
Channel Manager	Manages	Property Listing
Channel Manager	Syncs	Room Inventory
Channel Manager	Syncs	Availability Calendar
Channel Manager	Distributes	Pricing Rules
Channel Manager	Monitors	Booking

3.2: Object-Object Interactions

Object	Relationship	Object
Property Listing	Contains	Property Photos
Property Listing	Includes	Amenities

Property Listing	Displays	Pricing Rules
Property Listing	Shows	Availability Calendar
Property Listing	Includes	Property Rules
Property Listing	Generates	Booking
Property Listing	Receives	Review
Booking	Based on	Availability Calendar
Booking	Updates	Room Inventory
Booking	Requires	Payment
Booking	Creates	Invoice
Booking	Might Get	Cancellation
Booking	Stored in	Guest Profile
Booking	Might Apply	Voucher
Booking	Earns	Loyalty Points
Booking	Includes	Special Requests
Booking	Priced by	Rate Plan
Room Inventory	Updates	Availability Calendar
Availability Calendar	Aids In Determining	Pricing Rules
Pricing Rules	Creates	Rate Plan
Payment	Settles	Invoice

Payment	Generates	Commission
Payment	Triggers	Payout
Cancellation	Generates	Refund
Cancellation	Updates	Availability Calendar
Cancellation	Updates	Room Inventory
Review	Attached to	Booking
Review	References	Property Listing
Refund	Reverses	Payment
Commission	Deducted from	Payout
Voucher	Discounts	Payment
Loyalty Program	Might Award	Loyalty Points
Loyalty Program	Linked to	Guest Profile
Loyalty Points	Might Redeem for	Voucher
Support	Might Reference to	Booking
Reservation Report	Captures/Analyzes	Booking
Booking Modification	Updates	Booking
Booking Modification	May update	Availability Calendar
Special Requests	Attached to	Booking

Ecosystem Map

RallyUp - Online Fundraising Platform

1. Identify Users

User Role	Responsibility
Donor	Contributes funds to fundraising campaigns
Campaign Organizer	Creates and manages fundraising campaigns
Organization Administrator	Oversees multiple campaigns and organizational fundraising efforts
Beneficiary	Receives funds raised through campaigns
Platform Administrator	Manages platform operations, compliance, and policies
Platform Support Representative	Handles user inquiries and resolves issues
Volunteer	Assists with campaign promotion and activities
Corporate Sponsor	Provides sponsorship and matching donations

2. Identify Unique Objects

Object	Description
Campaign	Fundraising initiative with goals and details

Donation	Financial contribution made by donor
Donor Profile	Personal information and donation history
Campaign Page	Public-facing page with campaign information
Fundraising Goal	Target amount to be raised
Payment	Financial transaction for donations
Receipt	Tax documentation for donations

Payout	Transfer of funds to beneficiary
Platform Fee	Service charge for using the platform
Refund	Money returned to donor
Campaign Media	Photos and videos for campaign

Comment	Donor message or feedback
Social Share	Campaign promotion on social media
Reward	Incentive or thank-you gift for donors

3. Mapping Relationships

3.1: Role-Object Interactions

User Role	Relationship	Object
Donor	Makes	Donation
Donor	Receives	Receipt
Donor	Manages	Donor Profile
Donor	Sets up	Recurring Donation
Donor	Purchases	Ticket
Donor	Places	Bid
Donor	Leaves	Comment
Donor	Creates	Social Share
Donor	Claims	Reward
Campaign Organizer	Creates	Campaign
Campaign Organizer	Manages	Campaign Page
Campaign Organizer	Sets	Fundraising Goal

Campaign Organizer	Posts	Campaign Updates
Campaign Organizer	Uploads	Campaign Media
Campaign Organizer	Creates	Auction Item
Campaign Organizer	Manages	Ticket
Campaign Organizer	Reviews	Campaign Analytics
Campaign Organizer	Creates Awareness About	Campaign
Campaign Organizer	Creates	Peer-to-Peer Page
Campaign Organizer	Sets up	Reward
Campaign Organizer	Views	Leaderboard
Organization Administrator	Oversees	Campaign
Organization Administrator	Reviews	Campaign Analytics
Organization Administrator	Receives	Payout
Organization Administrator	Pays	Platform Fee
Beneficiary	Receives	Payout
Platform Administrator	Manages	Platform Fee
Platform Administrator	Processes	Payout
Platform Administrator	Approves	Campaign
Platform Support Representative	Processes	Refund
Platform Support Representative	Resolves	Issues

Volunteer	Promotes	Campaign
Volunteer	Creates	Social Share
Volunteer	Creates Awareness About	Campaign
Volunteer	Manages	Peer-to-Peer Page
Corporate Sponsor	Provides	Matching Gift
Corporate Sponsor	Makes	Donation
Corporate Sponsor	Sponsors	Campaign

3.2: Object-Object Interactions

Object	Relationship	Object
Campaign	Displays on	Campaign Page
Campaign	Sets	Fundraising Goal
Campaign	Raises	Donation
Campaign	Contains	Campaign Media
Campaign	Creates	Peer-to-Peer Page
Campaign	Offers	Ticket
Campaign	Includes	Auction Item
Campaign	Offers	Reward
Campaign	Tracked in	Campaign Analytics
Donation	Requires	Payment

Donation	Generates	Receipt
Donation	Information Can be Accessed From	Donor Profile
Donation	May have	Matching Gift
Donation	Contributes to	Fundraising Goal
Donation	May include	Comment
Donation	Influences	Leaderboard
Payment	Generates	Platform Fee
Payment	Triggers	Payout
Receipt	Documents	Donation
Peer-to-Peer Page	Linked to	Campaign
Peer-to-Peer Page	Generates	Donation
Auction Item	Receives	Bid
Bid	Requires	Payment
Ticket	Purchased with	Donation
Recurring Donation	Generates	Donation
Matching Gift	Multiplies	Donation
Campaign Updates	Posted on	Campaign Page
Social Share	Promotes	Campaign
Comment	Attached to	Donation

Leaderboard	Ranks	Donor Profile
Campaign Analytics	Tracks	Donation
Campaign Analytics	Monitors	Campaign
Payout	Transfers funds from	Donation
Platform Fee	Deducted from	Payout
Refund	Reverses	Payment
Reward	Earned by	Donation
Campaign Media	Displayed on	Campaign Page
